

# WHAT PEOPLE ARE SAYING ABOUT RENEE MILL

CLINICAL PSYCHOLOGIST, CORPORATE SPEAKER, CORPORATE COACH, MEDIA COMMENTATOR, BLOGGER, & AUTHOR.

"Our company participated in a 12 session process with Renee Mill over a period of about 8 months to assist us with looking at a range of different strategies for stress management.

The team benefited immensely from the process as it assisted us in identifying ways in which we could approach both personal and business challenges.

The group gave some very positive feedback about how the program had benefited them and how they are constantly trying to apply the tools. We will be looking to implement some 'booster' sessions over the next few months so that new staff members are up to speed on the concepts and so that we can continue to improve our ability to use the techniques in practical ways to improve our culture as an organisation and our own personal growth."

*Denise Meyerson, Director Management Consultancy International*

"Renee Mill is a consummate performer who knows her stuff and is able to communicate it powerfully and engagingly.

I found her presentations and talks fascinating, and learned an enormous amount about human behavior which I could apply in my own life. Thank you Renee for being such a brilliant communicator!"

*Josephine Brouard, Writer and Editor*

Renee Mill has worked with our company in several capacities over the past few years. She presented at our annual training conference for two consecutive years. Her presentations were engaging and interesting. Renee utilises humor, case studies and research to convey useful information. Renee is professional, friendly and an absolute pleasure to deal with. She delivers at every level!

*Rachel Argaman, CEO Toga Hospitality*

Renee Mill is a highly engaging speaker in so many ways. She is a true expert in her field and can deliver a message in a way that is completely absorbing for her audience. Renee delivers using a beautiful mix of humour, fable, stories, statistics and advice. She will knock your socks off.

*Suzy Jacobs, CEO of She Business*

Over the past 14 years I have used Renee Mill as a school psychologist, and later as a guest speaker at the schools I have led. In the case of staff development days some of our most experienced staff commented that Renee's presentations were the most inspiring they had ever attended. In fact, many staff requested to be able to attend Renee's follow-up workshop series and were even prepared to self-fund their learning. I would highly recommend Renee Mill as a very special guest speaker for any audience.

*Wendy Barel, Masada College Principle*
